

Ranjith Prasad

Dot net full stack

EDUCATION

MCA from Sikkim Manipal University- 2012
Bachelor of Commerce-2009-Calicut University

CERTIFICATES

Honor's Diploma In Web Application-NIIT
Microsoft Certified Technology Specialist (Course completed)

EXPERIENCE

Senior Associate - Cognizant
02/2022 – Present

Senior Consultant- Capgemini
06/2019 – 07/2022

Senior Software developer- Cormsquare
06/2018 – 06/2019

Senior Software developer-AlignMinds Technologies
07/2017 – 06/2018

Software developer- Anvin info system
12/2014 – 01/2016

Junior programmer- Programmers international
12/2011 – 02/2013

Summery

- Having 8.5 Years of experience in Software / Web Design, Analysis, Implementation, Testing and Business Application
- Skilled in mapping clients' business requirements and translating the same into functional specifications, services, implementations and custom designing solutions.
- In-depth knowledge derived from handling end-to-end development of software products/projects. From inception, requirement specs, planning, designing, implementation, configuration, documentation and closure with cross-cultural teams.
- Significant experience of working with customers, project managers and technical
- teams for securing & executing concurrent projects with proficient in .Net Core, Angular 8+, ASP.NET, MVC,, Node JS, JQuery , SQL Server, MySQL, Postgresql SQL, WEB API, Services, Entity framework and domains such as ERP Application , Saas application
- An effective communicator with relationship management skills with the ability to relate to people at any level of business and management.
- Good understanding and experience working on ASP.NET core.

SKILLS

Programming Languages

C#

Technologies Known

Net Framework, ASP.NET
MVC ,ASP.NET Web Forms,
ASP.NET CORE , Web
API,Node Js

Front-end Technologies

Angular 2/4/6/7/8/9, React
JS(intermediate level)HTML5,
jQuery, AJAX ,Bootstrap 3.0,
Typescript,JavaScript, JQuery,
Angular Material, Bootstrap UI

Database

SQL Server, MySQL,
PostgreSQL

Database Access Technologies

Entity Framework, LINQ,
ADO.NET

Version Control

Git, TFS, SVN

LANGUAGES

English

Tamil

Malayalam

AREA OF INTEREST

- Software Development
- Finance

WORK EXPERIENCE

Senior Associate

Cognizant

07/2020 - Present,

Project-SmartLube

Responsibilities

Fullstack Developer

- Researching, designing, implementing and DB designing activities
- Writing and implementing efficient code
- Developing application using Angular 13 , Angular material and .NET core
- Designed user interface for the application using Angular 13 and angular material and implemented business logic using C#.Net.
- Designing and developing Web API services on ASP.Net core framework through agile development methodology
- Configured API Explorer using Swagger UI via Swashbuckle package.

Technologies: Asp.net Core, My SQL, Angular 8, AWS, Jira, Git, Entity Framework, LINQ

Senior Consultant

Capgemini

July 2019- January 2022,

Project- LearnApp

Responsibilities

Fullstack Developer

- Researching, designing, implementing, DB development activities
- Testing and evaluating new programs
- Identifying areas for modification in existing programs and subsequently developing these modifications
- Writing and implementing efficient code
- Working closely with other developers, UX designers, clients, business and systems analysts
- Carried out the unit testing of code components and complete applications.
- Participated in all stages of Software Development Life cycle
- Actualized the implementation of real-time internal application notifications based on SignalR.

Technologies: Asp.net Core, My sql, Angular 8, Amazon S3 (AWS S3), TFS, Git, Entity Framework, LINQ, node js

Senior software Developer

Cormsquare

June 2018- July 2019,

Project- ProcNext

Responsibilities

Fullstack Developer

- Developing application with Angular4/ 6/7 , Angular material and NET core2.2
- Maintaining, tuning and repairing applications; providing user support
- Bug fixing issues
- Develop and manage well-functioning databases and applications
- Write effective APIs
- Maintaining and upgrading existing system

Technologies: Asp.net Core, My sql, Angular 4+, Git, Entity Framework, LINQ

Senior software Developer

AlignMinds Technologies

july- 2017- June 2018

Project- Cloud Plex

Responsibilities

Fullstack Developer

- Developed application using ANGULAR-4 and .NET core2.0
- Perform the system integration and testing, problem trouble shooting and resolution.
- Developed various Common controls like -upload controls, auto complete textboxes, Bootstables ,common Messages
- Implemented Authentication and Authorizations in this Application
- Implemented real time dashboard with signalr resume

Technologies : .Net Core, Web api,git, Angular4, Bootstrap, JQuery, Bootstrap

software Developer

Anvin info system

December- 2014- November 2016

Project- Adler-i ERP,HRMS,RFID Tracking

Responsibilities

Fullstack Developer

- Design and implement integration components using ASP.NET (C#) and JavaScript, using latest industry standards and best practices. Design and implement Restful API layer along with calls to consume an API layer.
- Working on creating Rest Services using ASP.NET Web API and C#.
- Developing the view models and controller actions method to fetch the data from the back end rest services and send it as Json objects to the views.
- Used Google chart api, high charts api, Morris chart api for developing Dashboard
- Developed various Common controls like -upload controls, autocomplete textboxes, Bootstables ,common messages

Projcet- Adler-i ERP **Modules - HRMS, Procurement, Health club, Crm Sales, Sales**

Technologies:- ASP.NET MVC 4, Web api, Bootstrap, Ajax, JQuery, BootstrapThird party JavaScript library [jqx grid ,Handson Table]

Adler is an integrated application which can be used by Sales and Marketing Department, Trading, And HRMS module to be used by HR department, Finance, Project and Contracting Module and Service Management.

AdLER is an integrated enterprise resource planning application framework designed specifically to meet the operational needs of single or Multi Company, small to large sized trading houses and manufacturers. With well covered and extended functionalities, high levels of ease of use and rapid implementation, AdLER is a comprehensive solution with low total cost of ownership.

Projcet- *RFID Tracking*

Technologies *ASP.NET MVC 4, Web api, Bootstrap, Ajax, JQuery, BootstrapThird party JavaScript library [jqx grid ,Handson Table]*

RFID tacking application for which can be used for tracking the details of each students. Software tracking students attendance details, latecomers etc . Software can maintain to allocate bus allocation and bus tracking also. Software sending information to guardians by sms and email . Dashboard details maintain the student strength , student details , attendance details

Junior Programmer

Programmers international

December- 2011 – February 2013 Project- Janapriyavivaham.com, astrosoft ,Hall Booking System , Admission Soft, e-complaints system, petshop.in

- Developed the web pages using ASP.NET, HTML, and CSS for styling the Web pages.
- Used .Net Validation Controls for server side validations and JQuery for client side validations.
- Involved in writing data access layers with C# and ADO.Net
- Extensively used Grid Views, Dataset , Details View , Form view , Repeater controls
- Using Email Sending Service
- Backup and Restoring of Database Management System
-

Technologies:- *ASP.Net 2.0, C#.Net, SQL SERVER 2005*

Projcet- *Janapriyavivaham*

Technologies *ASP.Net 2.0, C#.Net, SQL SERVER 2005*

The main objective of Janapriyavivaham is to provide Grooms and Brides with excellent matchmaking experience by exploring the opportunities and resources to meet true potential partner. This application also provides a search utility which helps those users who have a certain criteria of qualities in mind to make online matrimonial easier. Application provide capabilities like Admin module, Registration Module, Matching Module

,Feedbacks, success stories ,image upload, create album, confirmation process, express interest, personal messages ,paid membership, basic and advance search etc.

Projcet- *astrosoft*

Technologies *ASP.Net 2.0, C#.Net, SQL SERVER 2005*

Astrosoft is web based application enquiry and registrations of a Grooms and Brides. Service provide horoscope matching, searching partner , image upload facility
